

Green Transition Crowborough

Green Transition Crowborough is a community organisation that promotes local action to address climate change and encourage sustainability

We are a group of eco-enthusiasts with a passion for Crowborough.

We believe by taking small actions they will cumulatively make a real difference.

We operate in line with the values, principles and example of the Transition Network.

GTC was set up in September 2021 and brought together a number of existing groups. Over time these have developed. GTC now works with the community in general, with local businesses, local schools and sport clubs. Its current areas of interest are:

- Repair Café
- Sustainable Living in Crowborough
- Energy & Transport
- Food & Horticulture
- Crowborough Community Pantry
- Community Orchard
- Crowborough Wildlife

We'd love you to come and join us.

Show your support:

Please sign-up as a member free of charge. You can indicate how much or in which groups you want to be involved or simply show your support for what we are trying to do.
